Assignment-1: HTML

Time: 2 weeks

(Visual appeal of your design matters)

- Use text formatting, list, table, form, frame etc.
- Do not use CSS for this assignment.

Part-I (Deadline: Week-1)

Create an HTML page which shows list/icons of question papers of some subjects (Introduction to computing, DBMS etc.). Then prepare an online question paper (like a form) on an HTML page for any subject linked to an icon/list. Do not plug-in any copy of standard question paper as image. Create a link to a group blog (blog of multiple persons) with some of your friends photographs and comments' regarding difficulty level of the question paper. You may include some opinions in form of video.

Part-II (Deadline: Week-2)

Upgrade the above problem as follows:

- Instead of only few subjects include semester-wise B.Tech course structure in form of a nested list.

- Before getting access to the list a user has to fill out a form including personal/academic detail, photograph, contact etc.

- Create appropriate home page of this application (say Question Bank) with use of frame division.
